It was a very busy school year as the staff became familiar with the new facilities. The staff took great pride in showing off the new school to the community of Covert. The dream of many finally came true.

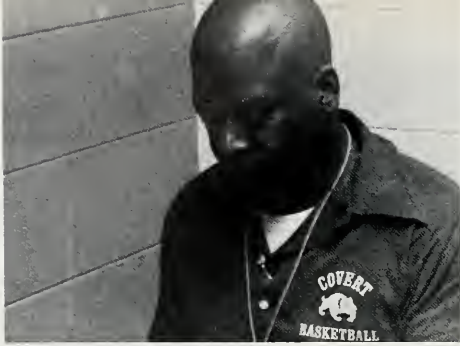

The school administration and Board of Education spent long and hard hours ironing out problems to make a smooth running school year possible.

All faculty members tried to be as helpful as they could to students to encourage them in their goals of the future.

Teachers had to keep in touch with all current events so that they might better prepare Covert youngsters for the outside world and society. Faculty members wanted students to become responsible citizens and adults.

It seems that there is a question of - where's the volleyball?
